Report on Career Counseling Session by Excellence Technology

Dated: 7 August 2026

A **Career Counseling Session** was organized for the students of the **Bachelor of Computer Applications (BCA)** Department on **7 August 2026** in **Room No. 262**. The session was conducted by representatives/resource persons from **Excellence Technology** with the objective of providing students with guidance regarding career opportunities, emerging technologies, and the skills required to succeed in the IT industry.

Objectives of the Career Counseling Session

The major objectives of the session were:

1. **To provide career guidance** to BCA students and help them understand various career opportunities in the IT and technology sectors.
2. **To create awareness about emerging technologies**, particularly Artificial Intelligence (AI) and Agentic AI.
3. **To familiarize students with industry requirements** and the technical skills expected from computer application graduates.
4. **To encourage students to explore modern AI tools and technologies** beyond conventional applications such as ChatGPT.
5. **To develop practical and problem-solving skills** among students through exposure to live demonstrations and interactive activities.
6. **To motivate students for continuous learning and skill development** in order to enhance their employability and career prospects.
7. **To bridge the gap between academic learning and industry practices** by providing students with insights from technology professionals.

The programme was coordinated by Dr. Vijay Thakur, Coordinator, BCA, who welcomed the resource persons from Excellence Technology and addressed the students. Ms. Shilpa Bajaj and Ms. Madhuri, faculty members of the BCA Department, were also present during the session.

The resource persons interacted with the students and provided valuable insights into the changing requirements of the technology sector. The session also introduced students to Artificial Intelligence and Agentic AI, highlighting how modern AI systems can go beyond simple conversations to think, plan, use tools, and perform tasks. The presentation titled “Agentic AI – Beyond ChatGPT: Build AI That Thinks, Plans & Acts” focused on concepts, tools, live demonstrations, and practical applications of AI.

Conclusion

The career counseling session conducted by Excellence Technology was highly informative and beneficial for the BCA students. The session provided valuable exposure to Artificial Intelligence, Agentic AI, emerging technologies, and career opportunities in the IT sector. The interactive discussion and presentation helped students understand the importance of developing relevant technical and practical skills according to changing industry requirements. The session also motivated students to explore new technologies, enhance their knowledge, and prepare themselves for future career opportunities. Overall, the programme successfully contributed to career awareness, technological exposure, and skill development among the BCA students.
